
In Rosebud County We comply with the Wandering Medicine Agreement/Lawsuit. ~~SECRET~~

The Northern Cheyenne Tribe has provided us with office space since 2015. One person and sometimes two from my staff travel to Lame Deer two days a week for the late registration period which is 30 days prior to each federal election

The numbers of people served is gradually increasing. By served I mean actually voting and sometimes its just an inquiry.

Primary 2016	40	12 voted
General 2016	114	63 voted
Special federal 2017	60	53 voted
Primary 2018	31	23 voted
General 2018	198	(had a couple of events to bring voters to us sponsored by organizations)

~~Western~~ Native voice has been a huge help in our rising numbers. They go out and bring people to the polls, make phone calls and collect ballots. The BALLOT Collection REGISTRY is going to be a huge barrier in the upcoming elections, because one person can only drop off **six ballots per election**. So individuals are going to have to bring ballots in themselves.

A major problem we have is that the Big Horn county lines is just about 5 miles west of Lame Deer so often times we get voters that vote in Big Horn and don't understand why they cant vote in Lame Deer although they live closer to Lame Deer than Busby. IT causes us lots of bad press, like we turn people away and would not let them vote, which is very upsetting to us.

Huge barrier when registering voters, getting correct social security numbers, the residential addresses are usually incomplete or completely missing and there is limited contact information. And often times names are different as well that what is on current card.

Many of our voter registration cards come from registration drives put on by different groups. Our office will receive a large envelope with many registration card with missing information before each federal election. We try to contact them by phone but often times , there is no number so we ending up writing a letter and usually nothing happens, We do take them to Lame Deer with us and try to resolve them there as well.

Often times we try to have someone sitting with us that is familiar with the voters and often times they Help with address information.
